The Honorable John F. Kerry
Secretary
U.S. Department of State
2201 C Street, NW
Washington, D.C. 20520

Dear Mr. Secretary:

On November 3, 2015, the Department of State released the Record of Decision regarding the Keystone XL pipeline permit application.¹ According to the documents, the Department denied the permit application because the pipeline “would not serve the national interest.”² This is the first time that the Department has denied a permit for a cross-border pipeline.

The Record of Decision further stated that a “key determination” for this unprecedented decision was that the project “would undermine U.S. climate leadership and thereby have an adverse impact on encouraging other States to combat climate change and work to achieve and implement a robust and meaningful global climate agreement.”³ In a subsequent press statement explaining the Keystone XL decision, you stated, “The critical factor in my determination was this: moving forward with this project would significantly undermine our ability to continue leading the world in combatting climate change.”⁴

Basing such an important decision on an arbitrary new standard creates the appearance that the decision is more symbolic than scientific.⁵ In fact, the Record of Decision fails to analyze the Department’s thorough and lengthy environmental and economic analyses that found the Keystone XL project will have little impact on greenhouse gas pollution and oil extraction, will create jobs, boost GDP, and strengthen foreign relations, among other benefits.⁶ The new standard articulated in the Record of Decision for Keystone XL, and in your subsequent press statement, allows the Department to deny such a permit for arbitrary reasons.

⁶ Record of Decision, *supra* note 1.

To help the Committee understand the Department's decision-making, please provide the following documents and information:

1. All documents and communications referring or relating to the "key determination" that the Keystone XL pipeline project would "undermine U.S. climate leadership and thereby have an adverse impact on encouraging States to combat climate change and work to achieve and implement a robust and meaningful global climate agreement."⁷
2. All documents and communications referring or relating to "climate leadership" being "a key determination"⁸ and/or the "critical factor"⁹ in the Record of Decision for the Keystone XL pipeline project.

Additionally, the Committee reasserts its request that the State Department make David Huitema available for a transcribed interview. The Committee also requests a transcribed interview with Amos Hochstein.

The Committee on Oversight and Government Reform is the principal oversight committee of the House of Representatives and may at "any time" investigate "any matter" as set forth in House Rule X.

Please provide the requested information as soon as possible, but no later than 5:00 p.m. on March 9, 2016. When producing documents to the Committee, please deliver production sets to the Majority Staff in Room 2157 of the Rayburn House Office Building. The Committee prefers, if possible, to receive all documents in electronic format. An attachment to this letter provides additional information about responding to the Committee's request.

19. Upon completion of the document production, you should submit a written certification, signed by you or your counsel, stating that: (1) a diligent search has been completed of all documents in your possession, custody, or control which reasonably could contain responsive documents; and (2) all documents located during the search that are responsive have been produced to the Committee.
