SELECT SUBCOMMITTEE ON THE CORONAVIRUS CRISIS

2157 RAYBURN HOUSE OFFICE BUILDING

WASHINGTON, DC 20515-6143

PHONE (202) 225-4400

<https://coronavirus.house.gov>

June 15, 2020

The Honorable Tom Wolf  
Governor of Pennsylvania  
Office of the Governor  
508 Main Capitol Building  
Harrisburg, PA 17120

Dear Governor Wolf:

The ongoing COVID-19 pandemic has disproportionately affected the elderly, especially those living in nursing homes and other long-term care facilities. We write seeking information, at a granular level, about the science and information used to inform your decision to mandate nursing homes and long-term care facilities admit untested and contagious COVID-19 patients from hospitals. This decision likely contributed to the thousands of elderly deaths in Pennsylvania. Thank you for your attention and prompt response to this important inquiry.

On March 13, 2020, the Center for Medicare & Medicaid Services (CMS) issued guidance “For Infection Control and Prevention of Coronavirus Disease 2019 (COVID-19) in Nursing Homes.”<sup>1</sup> This guidance is a blueprint for individual states to follow when determining how to best control outbreaks of COVID-19 in nursing homes and long term care facilities. This guidance does not direct any nursing home to accept a COVID-19 positive patient, if they are unable to do so safely. In fact, it says “nursing homes should admit any individual *that they would normally admit to their facility*, including individuals from hospitals where a case of COVID-19 was/is present” *only if* the nursing home can follow Centers for Disease Control (CDC) quarantining guidance.<sup>2</sup>

CMS Administrator Seema Verma said, “[u]nder no circumstances should a hospital discharge a patient to a nursing home that is not prepared to take care of those patient’s needs.”<sup>3</sup> CMS did not mandate COVID-19 positive patients back to nursing homes but, instead, stated that a COVID-19 case at a hospital does not preclude the nursing home from accepting a COVID-19 negative patient.

---

<sup>1</sup> Memorandum from David R. Wright, Director, Quality, Safety & Oversight Group, U.S. Centers for Medicare & Medicaid Services, to State Survey Agency Directors (Mar. 13, 2020) (on file with Comm. Staff).

On March 18, the Pennsylvania Department of Health issued guidance mandating nursing home facilities accept COVID-19 positive residents.<sup>4</sup> The guidance stated “[n]ursing care facilities *must continue to accept* new admissions and receive readmissions for current residents who have been discharged from the hospital...”<sup>5</sup> While you altered the guidance on May 12, the new guidance stated that “a positive test result is *not* a reason to refuse readmission to a resident...”<sup>6</sup> The American Health Care Association said this order would “result in more people going to the hospital and more deaths.”<sup>7</sup>

According to the most recent available data, Pennsylvania has suffered 4,268 nursing home deaths related to COVID-19.<sup>8</sup> That is more than 68% of the State’s total COVID-19 deaths and more than 3% of the State’s entire nursing home population.<sup>9</sup>

To help us better understand what science or guidance you used to make this lethal decision, we respectfully request the following documents and information:

1. All State issued guidance, directives, advisories, or executive orders regarding hospital discharges to nursing homes or any and all other types of assisted living facilities, including those previously superseded, in chronological order.
2. The total number of COVID-19 related nursing home deaths, including deaths that occurred at the nursing home and deaths of a registered nursing home patient at a hospital, by day between January 1, 2020 and present.
3. The total number of COVID-19 related nursing home positive cases, including individuals who tested positive at a nursing home and individuals that tested positive at a hospital, by day between January 1, 2020 and present.
4. The total number of confirmed or suspected COVID-19 positive patients returned to a nursing home or other long-term care facility between March 25, 2020 and present.

5. All information, documents, and communications between the Office of the Governor and the Pennsylvania Department of Health regarding COVID-19 mitigation in nursing homes and other long-term care facilities.
6. All information, documents, and communications between the Pennsylvania Department of Health and any and all of the State's Nursing Home Administrators.

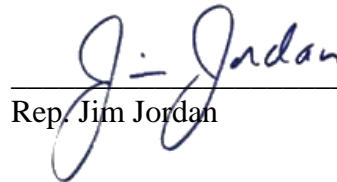

In addition to these documents, please provide a staff-level briefing no later than June 18, 2020. This briefing may be conducted remotely for convenience and safety issues. To schedule the briefing or ask any follow-up or related questions, please contact Committee on Oversight and Reform staff at (202) 225-5074.

The Committee on Oversight and Reform is the principal oversight committee of the U.S. House of Representatives and has broad authority to investigate "any matter" at "any time" under House Rule X. Further, the Select Subcommittee on the Coronavirus Crisis is empowered to investigate "preparedness for and response to the coronavirus crisis, including the planning for and implementation of testing, containment, mitigation, and surveillance activities."<sup>10</sup> Thank you in advance for your cooperation with this inquiry.

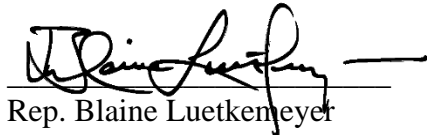

Sincerely,

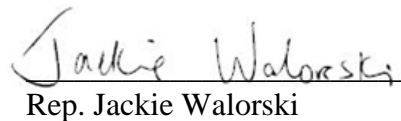

Rep. Steve Scalise  
Ranking Member

Rep. Jim Jordan

Rep. Blaine Luetkemeyer

Rep. Jackie Walorski

Rep. Mark E. Green, MD
